Project Assessment Criteria

Your Projects will be assessed on the competitive base. The best one among the Projects with the same name and requirements will be best graded, the poorest one will have the lowest grade.

Project Assessment will be based on two parts:

- Assessment of Project presentation (video) – 30% rate
- Assessment of Project documentation - 70% rate

<u>Main criteria:</u>

1. *Accuracy* (time accuracy, implementation of all features, pure usability testing process, right selection of users based on their profile, accurate following all requirements – design, coding, testing, maintenance) – 50% rate
2. *Attractiveness* (attractive presentation of project implementation, attractive video, attractive team members representation and their roles) – 20% rate
3. *Innovativeness* (using new technologies and tools in implementation) – 15% rate
4. *Complexity* (using complicated elements in design, interfaces, coding, testing and etc.) – 10% rate
5. *Prospective* (offering new elements of the Project and strategies of their using in future design, coding, testing and etc.) - 5% rate
